## PAGE PLANNER

Page Planner helps you to design your company web pages before uploading Document.

You will find it very easy to use the **Page Planner**, and then transferring everything to the real web pages.

### How to use the Page Planner?

Print yourself a Page 2, according to the number of copies you need.

The Page Planner has four columns, like the real web page, and bellow there are Bricks.

Use the picture bellow, and the "Full Airline Use" Demo for better understanding of the process.
